

PUTATIVE LIST OF MEDICATIONS/CATEGORIES TO COLLECT

October 14, 2011

A. For these 19 classes or individual drugs, we'll quantify patient-days, not doses.

- PPIs -- esomeprazole, pantoprazole, omeprazole, rabeprazole, lansoprazole, dexlansoprazole
- H2-blockers -- ranitidine, famotidine, cimetidine, nizatidine
- Unfractionated Heparin SQ
- LMWH: dalteparin, enoxaparin, tinzaparin, nadroparin
- benzodiazepines by iv continuous infusion -- lorazepam, diazepam, midazolam
- opioids by iv continuous infusion -- alfentanil, fentanyl, hydromorphone, morphine, meperidine, sufentanil
- propofol by iv continuous infusion
- Insulin by iv continuous infusion
- Furosemide by continuous iv infusion
- antifungal azoles -- fluconazole, itraconazole, ketoconazole, posaconazole, voriconazole
- fungins -- caspofungin, micafungin, anidulafungin
- antipseudomonal PCNs -- piperacillin, piperacillin/tazobactam, ticarcillin, ticarcillin/clavulanate
- vancomycin
- vanco alternatives as a group -- linezolid, daptomycin, quinipristin/dalfopristin
- fluoroquinolones -- ciprofloxacin, moxifloxacin, levofloxacin, norfloxacin, ofloxacin,
- carbapenems -- meropenem, imipenem, doripenem
- ertapenem -- Anand wants it separately
- 3<sup>rd</sup> generation cephalosporins -- ceftriaxone, cefotaxime, cefixime (excluding ceftazidime)
- ceftazidime
- tigecycline

JM - Show to Gail the list on Monday + Trish next week

Sept

Team Meeting - Sept 19

Oct 14. 11

As per Dr. barland TO  
NOT including

B. For these 26 we'll just identify Yes/No at any time in ICU

- Bosentin
- Viagra-type vasodilators -- Sildenafil, Tadalafil
- Special upper GI bleeding agents -- octreotide or somatostatin
- Amiodarone
- Anti-tuberculosis drugs -- Isoniazid, Rifabutin, Ethambutal, Pyrazinamide, Streptomycin --- NOT including Rifampin
- statins -- atorvastatin, fluvastatin, simvastatin, lovastatin, pravastatin, rosuvastatin
- Vitamin K antagonists -- warfarin, acenocoumarol
- Unfractionated Heparin by iv continuous infusion
- Direct thrombin inhibitors -- argatroban, bivalirudin, lepirudin, dabigatran
- Heparinoids -- danaparoid
- Factor Xa inhibitors -- Fondaparinux, Rivaroxaban
- Paralytics by iv continuous infusion -- rocuronium, atracurium, pancuronium, cis-atracurium, others? ← consider changing this to at all
- Dopamine iv continuous infusion
- Dobutamine iv continuous infusion
- Norepinephrine iv continuous infusion
- Epinephrine by iv continuous infusion
- Phenylephrine by iv continuous infusion
- Vasopressin by iv continuous infusion
- Milrinone or amrinone by iv continuous infusion
- corticosteroids by oral or iv routes (NOT inhaled or nasal) -- betamethasone, cortisone, hydrocortisone, methylprednisolone, prednisone, dexamethasone, fludrocortisone, budesonide, prednisolone, triamcinolone
- amphotericin B -- amphotericin B, amphotericin B lipid complex, amphotericin B liposomal
- macrolides -- erythromycin, azithromycin, clarithromycin, telithromycin
- 1<sup>st</sup> or 2<sup>nd</sup> generation cephalosporins -- cefazolin, cephalexin, cefadroxil, cefuroxime, cefoxitin, cefprozil, cefaclor, others?
- 4<sup>th</sup> generation cephalosporins -- cefepime
- antistaph penicillins -- cloxacillin, oxacillin, nafcillin, dicloxacillin
- aminoglycosides -- gentamicin, tobramycin, amikacin, neomycin, streptomycin, netilmycin
- influenza drugs -- tamiflu, oseltamivir, zanamivir, others?

C. Eliminate altogether from data collection

- Nitroprusside by iv continuous infusion
- Nitroglycerin by iv continuous infusion
- fludrocortisone
- clostin
- anti-CMV drugs -- ganciclovir, valganciclovir
- foscarnet
- acyclovir
- Epoprostenol
- EPO-type drugs -- darbepoetin, epoetin alpha, eltrombopag, filgrastim, pegfilgrastim, romiplostim,
- Rifampin
- Miscellaneous immunosuppressives -- cyclophosphamide, azathioprine, mycophenylate, cyclosporin, tacrolimus
- Biologics -- infliximab, adalimumab, etanercept, trastuzumab, rituximab
  - abciximab (Reopro) or eptifibatide (integrilin) or tirofiban (Aggrastat)
